SUMMARY

Software Engineering student with a strong foundation in full-stack web development and hands-on experience building responsive web applications and Java projects. Meta Front-End Professional Certificate holder and currently completing the Meta Back-End Professional Certificate. Passionate about software engineering, problem-solving, and building user-focused applications. Seeking a software engineering internship to gain industry experience and contribute to real-world projects.

EXPERIENCE

Hackathon Participant

- Collaborated in a team to develop a solution under time constraints

Internship in SONEDE

- Assisted in the development and maintenance of internal software applications.

PROJECTS

Tourism Website

- Designed and developed a responsive website for tourism services
- Implemented front-end features using HTML,CSS, and JavaScript

Rock-Paper-Scissors Game

- Created a browser-based game using JavaScript
- Applied logic handling and user interaction principles

Java Projects

- Developed two small applications in Java focusing on object-oriented programming

Healthcare Website

- Built a web interface for healthcare-related information
- Focused on usability and clean UI design

Pomodoro Timer With To-Do List

- Developed a productivity tool combining task management and time tracking
- Implemented interactive UI and task persistence

Complaint Management Website

- Developed a full-stack web application for managing customer complaints.
- Used SQL for storing and managing complaint data.
